Percent satisfied with social and physical environment	100%	96.2%	92%
Percent satisfied with school-home relations	95.7%	96.2%	88%

\*Only students at the highest elementary school grade level at this school and their parents were included.

## REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

### Report of Principal and School Improvement Council...

Pleasant Hill Elementary School provides a quality educational environment to develop competent, confident, and responsible students. Our staff has worked cooperatively with students, parents, and community members to offer a safe clean campus, modern facilities, a challenging curriculum, quality instruction, current technologies, and effective communications. Consequently, our students experience great academic and personal growth, and our school remains a source of pride for the entire community.

Academic achievement remains a top priority. We are diligent to ensure that students are taught all South Carolina learning standards. The balanced literacy concept guides instruction in the area of reading and language arts, encompassing shared reading, guided reading, independent reading, teacher read alouds, and writing. The Everyday Math program connects the real world to mathematical concepts and skills, incorporating games and other interactive activities. Teachers incorporate hands-on learning activities across all content areas to establish real life connections to learning. We host a science fair and provide science kits to immerse students in scientific inquiry and investigation. A wide variety of technology based resources supplement instruction in social studies. Our students and staff participate in a district technology fair. Monthly constructed response writings and daily non-fiction writing in all contents allow our students to develop written expression.

Much emphasis is placed on meeting individual student needs. Running records and MAP (Measures of Academic Progress) assessments allow teachers to identify and target instructional needs. Administrators and teachers work collaboratively to review student data during quarterly Data Review Days. Students requiring additional academic assistance in grades K-5 receive classroom interventions and/or tutoring services from highly qualified teachers.

We utilize technology in all classrooms by providing interactive white boards, portable computer carts, and two computer labs. Teachers participate in technology training during planning and after school hours. Training includes Promethean applications, web-site construction, and web-based instructional tools. Because students must be equipped to function in the twenty-first century, we envision an expanding roll in the use of instructional technologies.

Many of our students have talents in the areas of art, music, and physical education. We encourage students' best effort in every endeavor. Enrichment classes are provided to students in grades K-5 to assist in developing these talents. We have increased the amount of time spent in physical education, art, and music. Guidance and media classes are also provided to students

We will continue our mission, providing educational programs that require students to meet high academic standards and preparing students to be responsible citizens and lifelong learners.

W. Teddy Graham, Principal  
Sonya Marsh, SIC Chairperson
